

Are you ready for your next Audit/Assessment? Look to Kreative

INTRODUCTION

Our proprietary tool, **Kreative Assessment Readiness Manager "kARM"** is used as the **Practice Implementation Indicator Description (PIID)** for CMMI SCAMPI-A assessments. Our kARM tool allows us to manage the different maturity levels of different CMMI constellations such as CMMI DEV and CMMI SVC. Using kARM, we can easily organize and map work products to each CMMI practice (both specific and generic) with notes that indicate their relevance to ensure we are prepared and have met all of the requirements. Preparation is key. Through our tailored and scalable approach to customer support, we have become quite efficient with PIIDS development and preparation; our 100% success rate with CMMI readiness is the tell-all indicator! While some efforts may be more challenging than others, because of kARM, we have been extremely successful in the readiness of many organizations ranging in size and scope; from 3 to 3000 staff count.

SECTIONS

WHY KREATIVE?

The **Kreative Team** brings decades of symbiotic skills and education to the table, enabling us to provide the dynamic, tailored services that benefit our clients. We are flexible, energetic, friendly and work to build enduring relationships that are only possible with successful, measurable outcomes.
